

NAMAs

What is known so far

Claudio Forner, UNFCCC secretariat

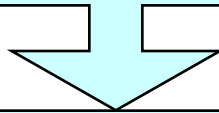

- Outlook to negotiations
- What are NAMAs?
- The registry
- Overview of MRV

“Developing country Parties will take nationally appropriate mitigation actions in the context of sustainable development, supported and enabled by technology, financing and capacity-building, aimed at achieving a deviation in emissions relative to ‘business as usual’ emissions in 2020”

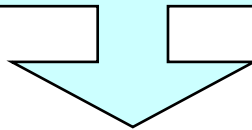

Bali Action Plan: enhanced action on mitigation, NAMAs

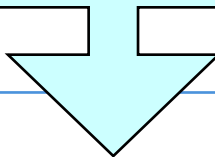

Cancun:

- Developing countries to take on NAMAs (with support)
 - Setting up of the registry
 - MRV and Enhanced reporting

Durban

- Understanding NAMAs
- Further guidance to the registry
- Guidelines for BUR and ICA

Nationally Appropriate

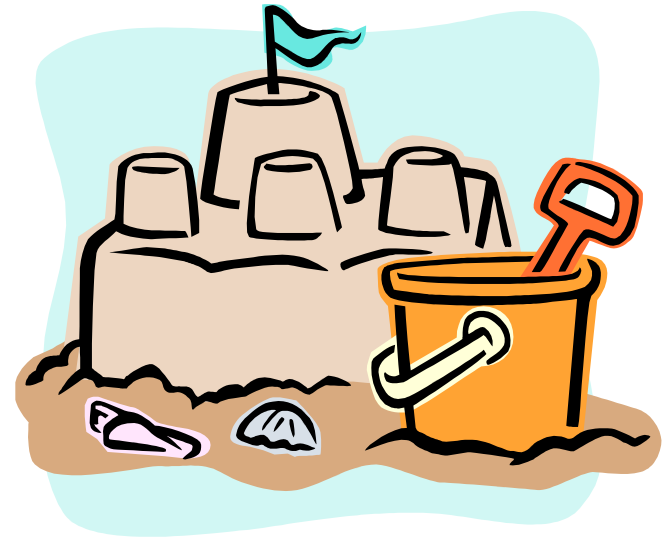

National priorities, development goals

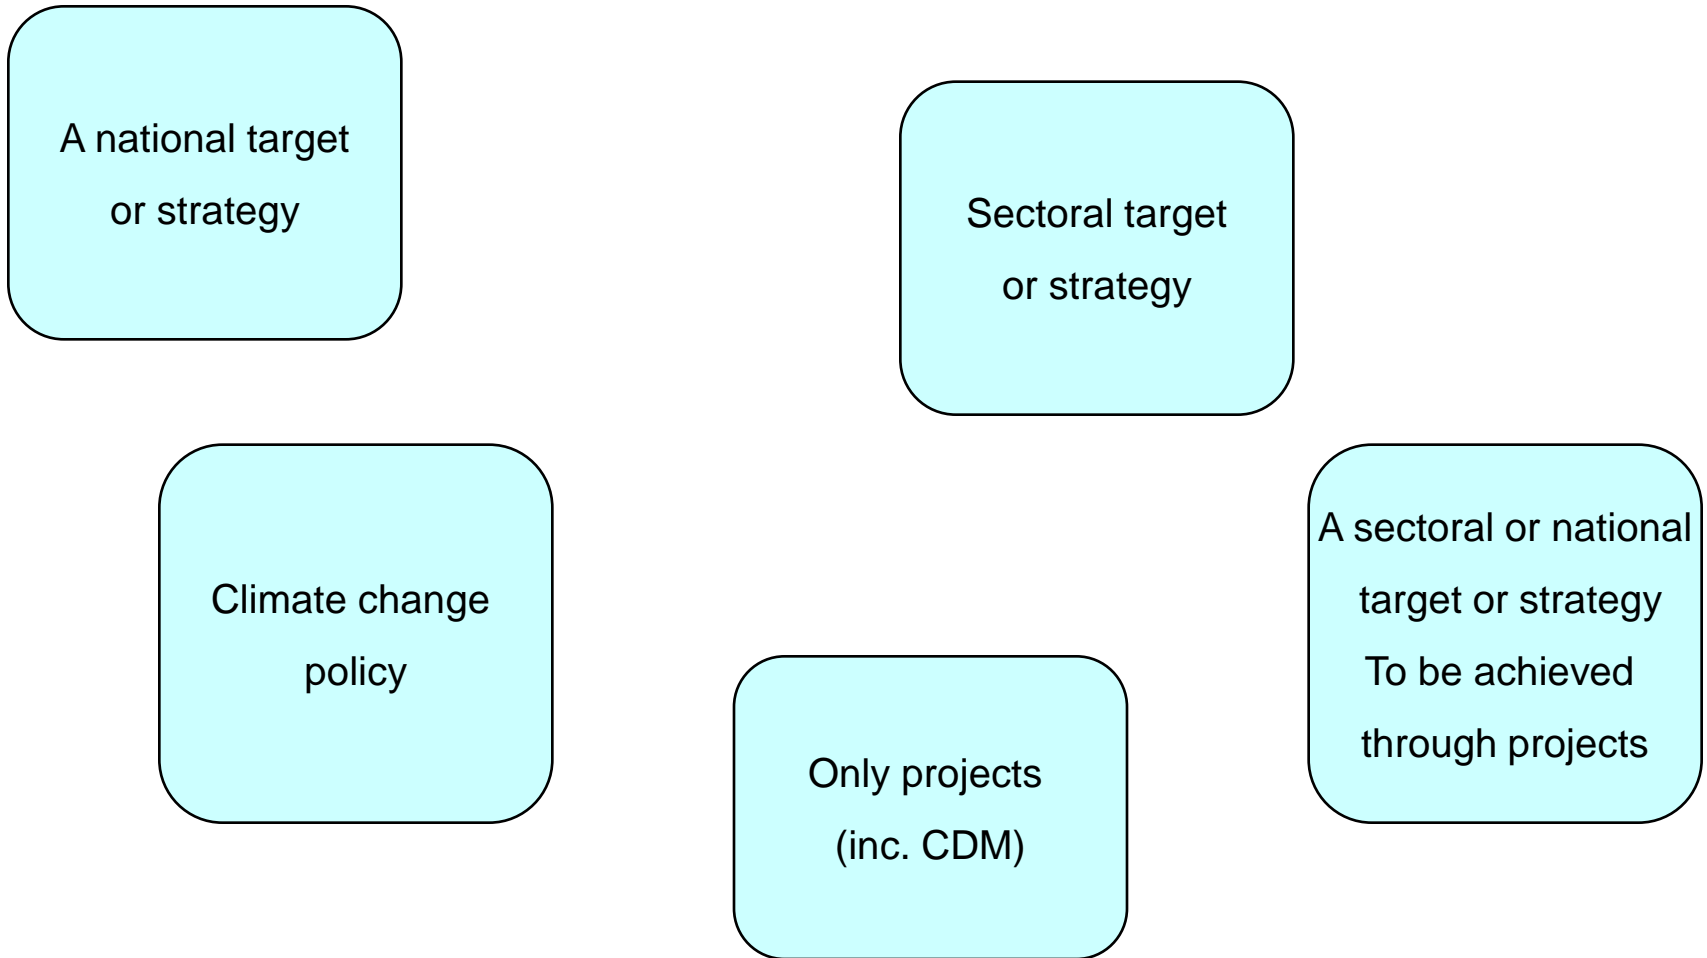

Mitigation Actions

GHGs (direct or indirect)

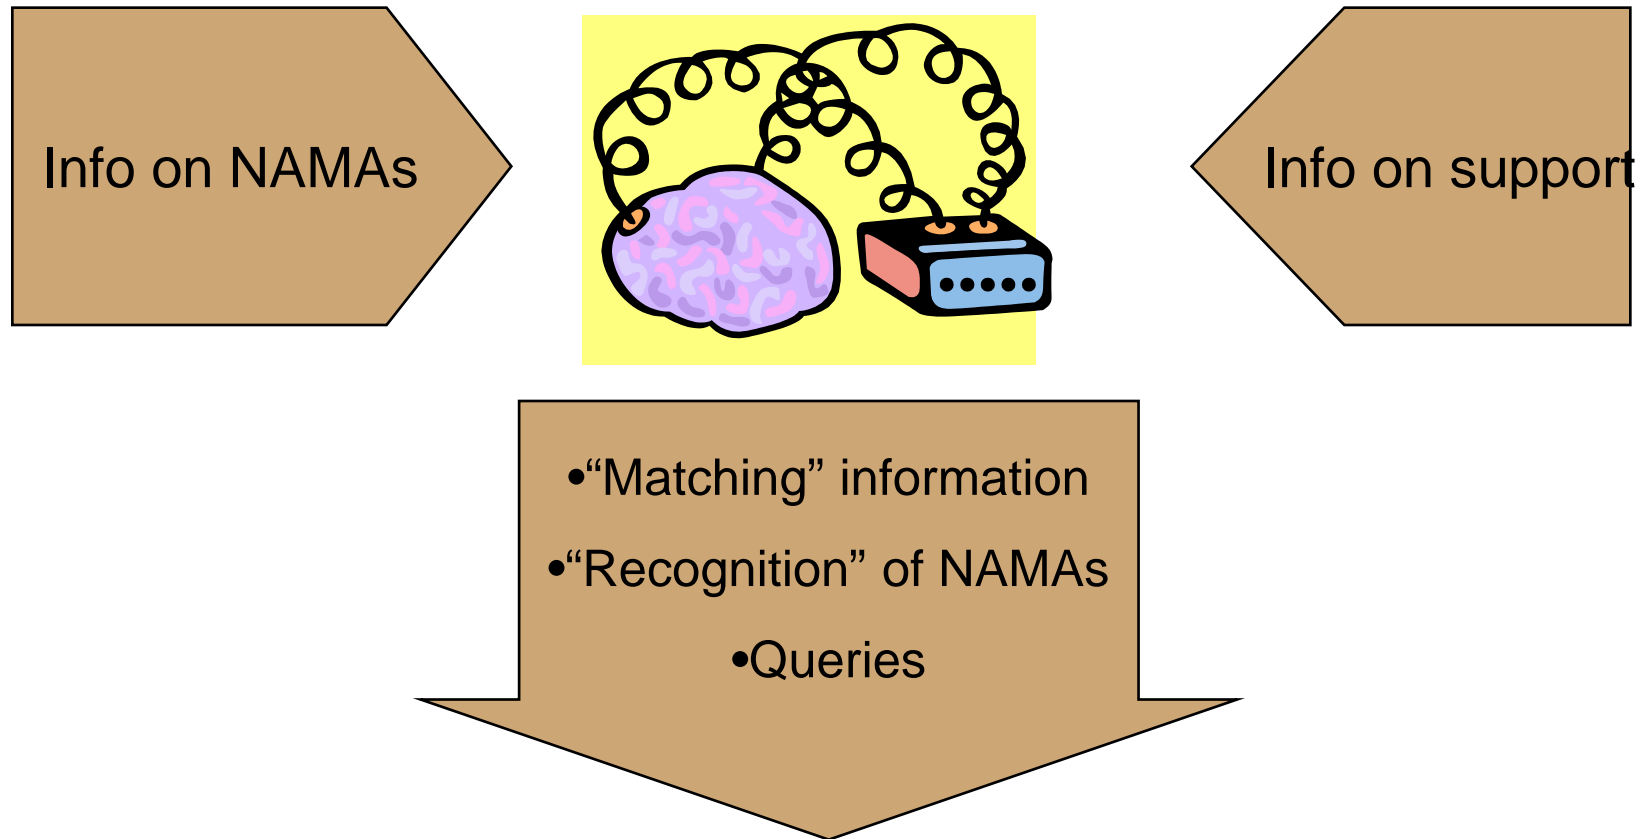

- 55 Parties have communicated NAMAs:
- Approach and definition is a national matter
 - ∅ Targets
 - ∅ Strategies
 - ∅ Programs and policies
 - ∅ Investment projects

What are NAMAs?: Different countries, different arrangements

- A platform to share information on NAMAs and support

- A voluntary platform
- Functions:
 - Ø Facilitate matching (information)
 - Ø Recognition
- Not a mechanism for MRV
- Not a requirement to receive support
- A process of understanding each other?

The screenshot shows the CC NAMA Registry website. At the top, there is a header with the text "CC NAMA Registry" in white on a dark background. Below the header is a navigation bar with "Home" and "User Tasks" (with a dropdown arrow). The "User Tasks" dropdown menu is open, showing two main sections: "NAMA" and "Support".

CC NAMA Registry

Home User Tasks ▾

NAMA

- Submit a NAMA seeking support
- Submit a NAMA for recognition
- NAMA pending submissions
- Submitted NAMAs

Support

- Submit information on support
- Pending submissions
- Information submitted

On the left side of the page, there is a sidebar with the following links:

- Country pages
- NAMAs seeking support
- NAMAs submitted for recognition
- Information on Support
- Supported NAMAs and their status

Home		User Tasks	Admin
NAMA ID:	NS-00001		
A.1 Party	Colombia		
A.2 Title of mitigation action	Strategic public transport systems program		
A.3 Description of mitigation action	<p>The objective of this program is to develop public transport systems (PTS) in four cities. These PTSs will improve public transportation service for close to one million passengers-day, modernize the transportation sector and mitigate climate change, while contributing to develop sustainable and competitive cities that provide safe mobility options for their population. The lower-income population accounts for most public transportation users. These riders are often required to make longer, combined trips. Physical and fare integration will lead to lower transportation costs, which for this population represent a major portion of daily expenses. Interventions are adjusted to reflect the environment and specific conditions of transportation demand and supply in each city, based on the results of targeted studies</p>		
A.4 Support status	Seeking support		
B. National implementing entity			
B.1 Name	name1		
B.2 Address	address1		
B.3 Phone	11111		
B.4 Email	email1@email.com		
C. Expected timeframe for implementation of the mitigation action			
C.1 Number of years for completion	5		
C.2 Expected start year of implementation	2014		
D.1 Currency	COP		
E. Costs			
E.1 Estimated full cost of preparation	COP 10,000,000	Calculated: \$ 5,650.00	
E.2 Estimated full cost of implementation	COP 300,000,000,000	Calculated: \$ 169,500,000.00	
E.3 Estimated incremental cost of implementation	COP 40,000,000,000	Calculated: \$ 22,600,000.00	

Supported NAMAs and corresponding support

NAMA	Corresponding support		
Jamaica			
NS-00003: Wind farm project	S-00005: NAMA support program	10,000.00	EUR
NS-00003: Wind farm project		199,000.00	USD
Morocco			
NS-00006: Installation of solar photo-voltaics	S-00002: World Bank NAMA trust fund	32,860.00	USD

Ø National communications every four years

Ø Biennial Update Reports

- Inventory
- Mitigation actions
- Support

Ø ICA (to BURs)

- Technical analysis
 - Facilitative sharing of views
-

- Ø Nationally supported: MRVd domestically
(general guidelines under preparation)
- Ø Internationally supported
 - § General requirements in accordance with BUR guidelines
 - § Specific requirements to be agreed bilaterally?

Thank you
